Academic Program and Course Description Guide

2024

Introduction:

The educational program is a well-planned set of courses that include procedures and experiences arranged in the form of an academic syllabus. Its main goal is to improve and build graduates' skills so they are ready for the job market. The program is reviewed and evaluated every year through internal or external audit procedures and programs like the External Examiner Program.

The academic program description is a short summary of the main features of the program and its courses. It shows what skills students are working to develop based on the program's goals. This description is very important because it is the main part of getting the program accredited, and it is written by the teaching staff together under the supervision of scientific committees in the scientific departments.

This guide, in its second version, includes a description of the academic program after updating the subjects and paragraphs of the previous guide in light of the updates and developments of the educational system in Iraq, which included the description of the academic program in its traditional form (annual, quarterly), as well as the adoption of the academic program description circulated according to the letter of the Department of Studies T 3/2906 on 3/5/2023 regarding the programs that adopt the Bologna Process as the basis for their work.

In this regard, we can only emphasize the importance of writing an academic programs and course description to ensure the proper functioning of the educational process.

Concepts and terminology:

Academic Program Description: The academic program description provides a brief summary of its vision, mission and objectives, including an accurate description of the targeted learning outcomes according to specific learning strategies.

Course Description: Provides a brief summary of the most important characteristics of the course and the learning outcomes expected of the students to achieve, proving whether they have made the most of the available learning opportunities. It is derived from the program description.

Program Vision: An ambitious picture for the future of the academic program to be sophisticated, inspiring, stimulating, realistic and applicable.

Program Mission: Briefly outlines the objectives and activities necessary to achieve them and defines the program's development paths and directions.

Program Objectives: They are statements that describe what the academic program intends to achieve within a specific period of time and are measurable and observable.

Curriculum Structure: All courses / subjects included in the academic program according to the approved learning system (quarterly, annual, Bologna Process) whether it is a requirement (ministry, university, college and scientific department) with the number of credit hours.

Learning Outcomes: A compatible set of knowledge, skills and values acquired by students after the successful completion of the academic program and must determine the learning outcomes of each course in a way that achieves the objectives of the program.

Teaching and learning strategies: They are the strategies used by the faculty members to develop students' teaching and learning, and they are plans that are followed to reach the learning goals. They describe all classroom and extra-curricular activities to achieve the learning outcomes of the program.

1. Program Vision

Serving the legal profession and legal consultations by providing distinguished legal education, based on the practical method of legal rules and their application to various types of problems and issues, and contributing to community service and preserving rights among its members. The Law Department at the College of Law / Al-Nahrain University also seeks to build a society developed in its awareness. Legal and to graduate generations who are qualified, committed and believers in the highest and noble values and implant them in their souls in order to contribute to the progress, advancement and development of society and achieve justice and equality.

2. Program Mission

The Law Department seeks to attract distinguished competencies of professors in the field of public and private law, to enhance legal scientific capabilities and transfer academic experiences by professors studying outside Iraq. Indeed, the department has achieved what it seeks, as it is attested to the excellence of its staff since its founding, as well as its students who have proven its worth in various government jobs. From judges, professors, lawyers, ministers, and others, we seek to prepare and graduate specialized legal cadres, deepen practical research in various legal specializations, consolidate the concept of the rule of law in the state, spread the culture of justice and protect the rights and legal centers of individuals, and strengthen cultural and scientific ties with scientific institutions in order to reach accreditation. Institutional requirements for quality higher education.

3. Program Objectives

- Developing the capabilities of faculty members by participating in conferences, seminars and specialized courses.

- Developing scientific and cognitive relations with other corresponding colleges at home and abroad.
- Keeping pace with developments with scientific research that addresses contemporary challenges to raise the level of legal knowledge.
- Strengthening scientific twinning with corresponding colleges and specialized local, regional and international organizations
- The Law Department aims to provide the community with qualified legal cadres so that they can fill their work tasks in society as lawyers or legal employees in state departments, or join the judiciary, or perhaps carry out teaching tasks and capable cadres. For this reason, the department was keen to provide a virtual courtroom and a legal clinic for its students to train students. Practically to create competent cadres in the labor market.
- Qualifying students with general legal academic qualifications in order to develop intellectual knowledge in law
- Qualifying students with legal sciences, legal schools, and comparative jurisprudential trends/comparative law approaches
- Working to apply theoretical and practical aspects in Contracts called (lease contract) in the form of a virtual court

4. Program Accreditation

no

5. Other external influences

Summer training in the courts and in legal clinics at the Faculty of Law

6. Program Structure

Program Structure	Number of Courses	Credit hours	Percentage	Reviews*
