Academic Program and Course Description Guide

2024

Introduction:

The educational program is a well-planned set of courses that include procedures and experiences arranged in the form of an academic syllabus. Its main goal is to improve and build graduates' skills so they are ready for the job market. The program is reviewed and evaluated every year through internal or external audit procedures and programs like the External Examiner Program.

The academic program description is a short summary of the main features of the program and its courses. It shows what skills students are working to develop based on the program's goals. This description is very important because it is the main part of getting the program accredited, and it is written by the teaching staff together under the supervision of scientific committees in the scientific departments.

This guide, in its second version, includes a description of the academic program after updating the subjects and paragraphs of the previous guide in light of the updates and developments of the educational system in Iraq, which included the description of the academic program in its traditional form (annual, quarterly), as well as the adoption of the academic program description circulated according to the letter of the Department of Studies T 3/2906 on 3/5/2023 regarding the programs that adopt the Bologna Process as the basis for their work.

In this regard, we can only emphasize the importance of writing an academic programs and course description to ensure the proper functioning of the educational process.

Concepts and terminology:

Academic Program Description: The academic program description provides a brief summary of its vision, mission and objectives, including an accurate description of the targeted learning outcomes according to specific learning strategies.

Course Description: Provides a brief summary of the most important characteristics of the course and the learning outcomes expected of the students to achieve, proving whether they have made the most of the available learning opportunities. It is derived from the program description.

Program Vision: An ambitious picture for the future of the academic program to be sophisticated, inspiring, stimulating, realistic and applicable.

Program Mission: Briefly outlines the objectives and activities necessary to achieve them and defines the program's development paths and directions.

Program Objectives: They are statements that describe what the academic program intends to achieve within a specific period of time and are measurable and observable.

Curriculum Structure: All courses / subjects included in the academic program according to the approved learning system (quarterly, annual, Bologna Process) whether it is a requirement (ministry, university, college and scientific department) with the number of credit hours.

Learning Outcomes: A compatible set of knowledge, skills and values acquired by students after the successful completion of the academic program and must determine the learning outcomes of each course in a way that achieves the objectives of the program.

Teaching and learning strategies: They are the strategies used by the faculty members to develop students' teaching and learning, and they are plans that are followed to reach the learning goals. They describe all classroom and extra-curricular activities to achieve the learning outcomes of the program.

1. Program Vision

Serving the legal profession and legal consultations by providing distinguished legal education, based on the practical approach to legal rules and their application to various types of problems and issues, and contributing to serving society and preserving rights among its members.

2. Program Mission

Preparing and graduating a specialized legal cadre, deepening practical research in various legal specializations, consolidating the concept of the rule of law in the state, spreading the culture of justice and protecting the rights and legal centers of individuals, and strengthening cultural and scientific ties with scientific institutions in order to reach the accreditation required for the quality of higher education.

3. Program Objectives

- Developing the capabilities of faculty members by participating in conferences, seminars and specialized courses.
- Developing scientific and cognitive relations with other corresponding colleges at home and abroad.
- Keeping pace with developments with scientific research that addresses contemporary challenges to raise the level of legal knowledge.
- Strengthening scientific twinning with corresponding colleges and specialized local, regional and international organizations.

4. Program Accreditation

No

5. Other external influences

No

6. Program Structure

Program Structure	Number of Courses	Credit hours	Percentage	Reviews*
Institution Requirements	44	96		
College Requirements				
Department Requirements				
Summer Training				
Other				

* This can include notes whether the course is basic or optional.

7. Program Description

Year/Level	Course Code	Course Name	Credit Hours	
			theoretical	practical
Fourth level	NLU-408	Implementation law	√	

8. Expected learning outcomes of the program

Knowledge	
Gain an idea about the implementation law, its procedures and work mechanism, and methods of appeal.	
Skills	
Linking theoretical information to professional work, whether functional or union	
Enabling students to know and	

understand computer instructions	
Ethics	
Various oral exams during the semester, focusing on effective attendance in the classroom, discipline, and the proper use of legal terminology and procedures when presenting legal issues.	

9. Teaching and Learning Strategies
Theoretical explanation and adoption of legal discussions alongside my practical side

10. Evaluation methods
Daily tests

11. Faculty						
Faculty Members						
Academic Rank	Specialization		Special Requirements/Skills (if applicable)		Number of the teaching staff	
	General	Special			Staff	Lecturer
Assistant Professor	special law	civil law			v	

Professional Development
Mentoring new faculty members

Publishing scientific research and attending lectures by former faculty members to benefit from them

Professional development of faculty members

Holding joint internal and external meetings and twinning with universities in research, conferences, etc

12. Acceptance Criterion

Central admission (general channel, private education channel)

13. The most important sources of information about the program

Methodical book and practical experience in executive procedures

14. Program Development Plan

Keeping up with legal developments and amendments
